Reference: Amended July Quarterly Report (4-1-06/6-30-06)

To Whom It May Concern:

We are in receipt of the Commission's letter regarding the above referenced report. Please see below for our complete response.

Your letter states that there are discrepancies on our Summary and Detailed Summary pages. After discussing with an analyst it was determined that this is NOT the case. Our committee did not make a mistake and this was simply a calculation error on the Commission's part. Let the record show that the Commission has recognized this error and interested parties can have this confirmed by the Commission's press office.

Our committee is aware of the best efforts standard established by the Commission. We do have a system in place to meet this standard. Here is the system that we have in place: 1) We include a request on all original solicitations informing the donor of the federal requirement for reporting such information. 2) We follow up in writing within 30 days with a request that does not solicit additional funds and includes a self-addressed envelope. This follow up also reiterates the requirement by federal law that we are mandated to request this information. When this information is received after a report has been filed for a particular period, we include it on any correspondence with the Commission as well as on subsequent reports. We have not received any additional information in this instance. We will continue to adhere to this standard and provide the information obtained to the Commission to complete the public record.

Please contact us if any further information is needed.

Thank you,
